

Assignment-8

Q Write a socket program to implement port scanning of ports from 1-1024 in C.

To open port 80 on your system:

```
sudo apt-get install apache2
```

```
service apache2 start
```

To check for opened ports:

```
sudo apt-get install zenmap
```

Note: An open lab-exam would be conducted on 3rd April, 2018 during lab-hours.
